Mr. Shacker reviewed the process and time line for selecting an individual for the position which is entirely up to council. He next states that council can determine what responsibilities they want to delegate to a City Administrator and the scope of the authority the individual has. The idea way to do this is with an ordinance. He discussed the City of Lancaster's job description sample stating that it could be the most likely one that the City of Union may want to use as a model or guide. MASC will also help with the review of applicants for the City Administrator's position.

D. Downtown Parking Solutions (Action)

Mayor Thompson ask Chief White to speak on implementing parking signs in the Downtown area. Next the Mayor asked Chief White to look at signs. The Chief also states that there was some mention about loading and unloading zones on the side streets that would need to be addressed. It would have to be specified in the ordinance what the regulations are. Parking enforcement would have to be monitored. The Mayor asked the Chief to get with City Attorney Larry Flynn to revise the ordinance. He asked Public Service Director Kenny Thomas to do research on signage and bring back to council; also re-surfing parking spaces were discussed. Councilmember Morgan made a motion to increase parking tickets to \$25. Motion died for lack of second. Councilmember Morgan states that it would be a good idea to have the sales rep come in and present cameras demonstration to the full council. Mayor Thompson states that council would review this first of the year.

G. Awnings – Main Street

Councilmember Anthony states that he feels it is time to do something about the awnings on Main Street. It has been talked about for three or four months. Councilmember Anthony states that council needs to get a group together and figure out what they need to do about the awnings on Main Street. Mayor Thompson discussed scenarios for the awnings: the City would do the awnings; ask the businesses on the side street (they felt they was being left out) or City do half and ask the business owners do half. After the awnings are up; he said that it should be the building owners responsibility to maintain the awning. That was part of the previous grant process that the City had some years ago; after a certain period of time, the business owners step in and maintain the awnings but this never happened. Mayor asked for volunteers from council to proceed with awning project. Councilmembers Anthony, Morgan and Harris volunteer. They will also get the Chamber of Commerce involved.

Councilmember Anthony asked Mr. Hart have they adopted the RBB (Residential Building License). Mr. Hart states that they are currently issuing any sub-trade permit to a RBB level residential license. Councilmember Anthony feels that the City needs to change its ordinance to the RBB Level Residential License Code. City Attorney Larry Flynn will review the City's ordinance for revision and come back to City Council with a recommendation at the next council meeting.

I. Building for Museum

Councilmember Anthony addressed council regarding the Museum. The councilman states that there have been a lot of issues regarding the museum. He made a recommendation to re-locate the Museum to the old Graham Cash building. County Supervisor Frank Hart states that he can get in touch with the owner of the building; they have had several meetings. This would save the City money. Mayor Pro Tem Garner suggested doing a sample somewhere installing LED light and turn off light on each side of LED to see if this work. Utility Director Joe Nichols states that the City only uses LED's. He always thought the area was well lighted because of the Public Safety Department. The Utility Director will ask Shealy's to look at and make any suggestion.

M. Lights at Stadium Crossing
