

Beginning November 18, 2009
Gas Rebate

In an effort to better serve our utility customers, the City of Union will offer an incentive to install a natural gas line and meter to a residence:

A rebate of \$300.00 will be refunded to the customer if a [meter and year round appliance such as a gas cook stove, hot water heater, dryer, or central furnace is installed within six \(6\) months of the service line installation.](#)

Gas grills, gas logs, or gas lighting do not qualify for rebate.

A minimum tap fee and service connection charge of \$330.00 is required to be paid with application of service.

For service lines over 100 feet, the charge is \$1.50 per linear foot in excess of 100 feet. Additional footage will be billed at the completion of the service line.
